DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on June 21, 2004 has been considered by the examiner.

Allowable Subject Matter

2. Claims 1-16 are allowed over the prior art.
3. The following is an examiner's statement of reasons for allowance: In the Examiner's opinion, an adjustable width carriage for supporting and carrying containers, the carriage comprising front and rear wheel assemblies each having an axle housing, a right and left side upright support frame integral with a top of the axle housing on both the front and rear wheel assemblies, the upright support frames each having a top surface containing engagement ridges and a side surface on each side of the top surface adapted to receive a C-channel on opposite inner edges of a movable planar platform, the movable planar platform having a top surface formed with a latch, the latch having a bottom projection adapted to engage the engagement ridges on the upright support frame, was not anticipated by the prior art, nor would it have been obvious to a person of ordinary skill in this art.

The prior art, specifically Wisz (US 5,465,996) and McCoy et al. (US 5,249,823), discloses an adjustable length and width carriage comprising front and rear wheel assemblies each having an axle housing and left and right side upright support frame integral with a top of the axle housing, however, the upright support frame does not contain engagement ridges and

side surfaces adapted to receive a C-channel of a movable planar platform having a latch that engages the engagement ridges of the upright support frame.

Schurr (US Des. 349,994) discloses a container dolly having front and rear wheel assemblies having an axle housing and left and right upright support frame integral with the axle housing. Schurr does not disclose the support frames having engagement ridges and a movable planar platform.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
